

**IN THE CLAIMS**

Please amend claim 15 as follows:

15. (AMENDED) A method of inserting a circuit integration module into an avionics cabinet, the method comprising the steps of:
- aligning said module to a guide on said avionics cabinet;
  - inserting said module into said avionics cabinet along said guides; and
  - securing said module in said avionics cabinet in order to provide an electrical interface between said module and said avionics cabinet.
